Comment on the proposed conservation of sipunculan names

(Case 2450; see BZN **44**: 89–91)

Edward B. Cutler
Utica College of Syracuse University, Utica, New York 13902, U.S.A.

I wish to support the case made by Saiz Salinas to conserve four sipunculan specific names instead of replacing them with names which have not been used for new material for over 100 years. As one who has worked with this phylum for 23 years and published extensively I urge the Commission to respond positively to his request. To do otherwise would create real and unnecessary confusion.

Note on the homonymy between THAIDIDAE Joussaume 1888 (Mollusca, Gastropoda) and THAIDIDAE Lehtinen, 1967 (Arachnida, Araneae)

(Case 2307: see BZN **42**: 389–390)

P. K. Tubbs
Executive Secretary, International Commission on Zoological Nomenclature

This case has been withdrawn, so that the name of the gastropod genus THAIDIDAE Joussaume remains unchanged and the spider genus AUSTROCHILIDAE Zapfe, 1955 has priority over THAIDIDAE Lehtinen, 1967.
